

The 700 Series Conveyor Flange Adaptor Reducer Flange Mount

Specially designed for the material handling OEM

For the material handling OEM doing business in today's competitive global markets, Boston Gear introduces the CFA700 Series direct mount speed reducer. The innovative output flange mounting style is not only a better value for your drive train components, but simplifies the assembly process and streamlines your equipment design.

Features and Benefits

Cleaner Design

- Fewer parts
- Inventory savings
- Fewer invoices

Space Savings

- Enables streamline design
- Weight and space savings

Cost Savings

- Eliminates mounting hardware and chaindrive
- Reduces assembly time
- Eliminates chain maintenance

No Design Change Required

- Drop-in replacement
- Fits standard 2 and 4 bolt bearing patterns

Reduces Maintenance Costs

- Eliminates chain stretch
- Eliminates sprocket changeovers

Soft Cost Savings

- Fewer parts in inventory
- Lower receiving time
- Fewer invoices and follow up phone calls

Equipped With PosiVent®

- Factory-filled with lubricant
- No oil changes required
